ABOUT THE ASSOCIATION

The Andhra Pradesh Pet Practitioners Association (APPPA) is a registered professional body dedicated to advancing companion animal practice and promoting excellence in veterinary healthcare across Andhra Pradesh. APPPA serves as a platform for continuous professional education, scientific exchange, clinical collaboration, and professional development, bringing together veterinarians, academicians, specialists, and industry partners. Through scientific conferences, continuing veterinary education programmes, hands-on workshops, and professional networking initiatives, the Association promotes the adoption of evidence-based medicine, ethical clinical practice, and contemporary standards of patient care. APPPA is committed to building a strong and connected professional community that empowers practitioners to continually enhance their knowledge and skills while collectively advancing companion animal medicine and the welfare of pets and their families.

ABOUT APPPA'S CONFERENCE -26

APPPA's Annual Conference-2026, our flagship Annual Educational Conference, is designed to address the growing need for continuous professional development in companion animal practice. With rapid advances in diagnostics, therapeutics, imaging, surgery, and evidence-based medicine, veterinarians must continually update their knowledge and clinical skills to deliver modern, high-quality patient care. This conference brings together practicing veterinarians, academicians, specialists, and industry experts in a focused scientific platform that encourages learning, clinical case discussions, exchange of practical experience, and professional networking. Beyond scientific learning, the conclave provides an opportunity to build lasting professional connections, strengthen referral networks, and collectively advance the standards of companion animal practice. This is therefore not simply a conference—it is a platform to learn, connect, share, and grow together as a profession.

SCIENTIFIC SESSIONS

The APPPA Technical Committee has carefully identified key clinical thrust areas that reflect the evolving needs and challenges of contemporary small animal practice. To ensure every session delivers meaningful and practice-oriented learning, leading subject matter experts have been invited to share their knowledge, experience, and clinical insights.

The scientific programme brings together a high-impact blend of topics, including Fluid Therapy in Small Animal Practice, Emergency & Critical Care, Radiographic Interpretations, Endocrinopathies, Complex Haemoprotozoal Diseases, Anaesthesia in Critical Care, and several other clinically relevant areas. And there is more than lectures!

"ASK THE EXPERTS"

An interactive session designed to take learning beyond the lecture hall—bring your challenging cases, unanswered questions and clinical dilemmas, and ask the experts directly. This open forum will provide an opportunity to clarify doubts, bridge knowledge gaps, discuss practical challenges, and gain insights that can be immediately translated into everyday practice.

Come prepared to learn. Come prepared to ask. Come prepared to take your practice to the next level.

REGISTRATION DETAILS

EARLY BIRD REGISTRATION OPEN

VALID UNTIL SEPTEMBER 30TH, 2026

CATEGORY	WITHOUT ACCOMODATION	WITH ACCOMODATION
LIFE MEMBER	12,000 INR	15,000 INR

ANDHRA PRADESH PET PRACTITIONERS ASSOCIATION

WELCOMES YOU TO THE CITY OF DESTINY

VISAKHAPATNAM

SUBMARINE MUSEUM

RUSHIKONDA BEACH

BORRA CAVES

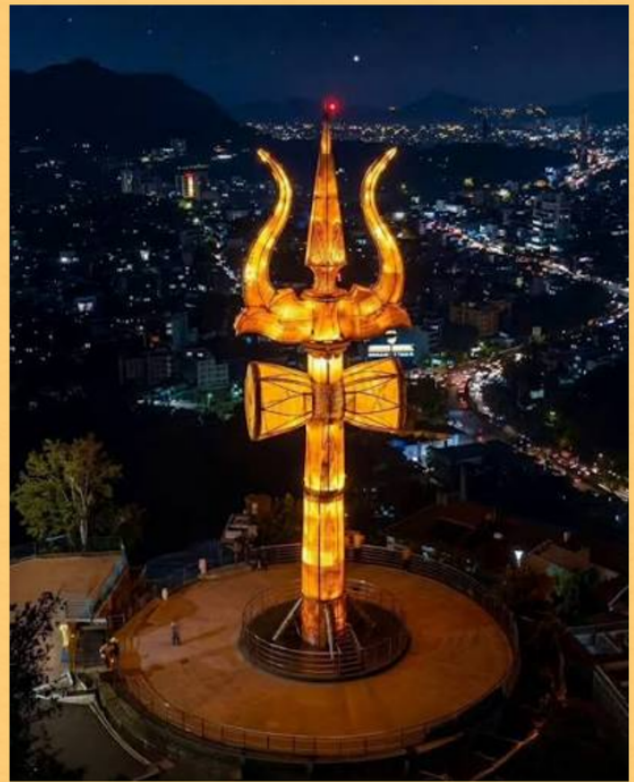

ARAKU VALLEY

“IMMERSE YOURSELF IN A SEA OF KNOWLEDGE, SURROUNDED BY THE BEAUTY OF NATURE.”

GLASS BRIDGE

TALLEST TRISHUL

THOTLAKONDA

ANANTHAGIRI HILLS

Set along the beautiful Bay of Bengal, Visakhapatnam—fondly known as Vizag—offers a unique blend of pristine beaches, lush hills, cultural heritage and breathtaking natural landscapes. The city's attractions include the scenic Ramakrishna Beach, Rushikonda Beach and Yarada Beach, the panoramic hilltop views of Kailasagiri, and the iconic INS Kurusura Submarine Museum.

November is an especially wonderful time to experience Vizag, when the monsoon has passed and the coastal landscape is refreshed, making it ideal for sightseeing, beach walks and exploring the surrounding hills. For those with additional time, the spectacular Araku Valley and Borra Caves offer an unforgettable escape into the Eastern Ghats, with lush valleys, waterfalls, coffee plantations and unique natural formations.
